

Yoshihiko Ueda
Mies Van Der Rohe / Photographs
Publisher Kajima Institute
ISBN 978-4-306-09419-2
circa CHF 180.00

Acclaimed Japanese photographer Yoshihiko Ueda embarks upon an introspective pilgrimage to discover the architecture of Mies van der Rohe in this elegant photo book. His passion for the famed Modernist's work is palpable, as he approaches each subject with loving, almost ritualistic care. Ueda's camera often focuses on the details: textures and grains, doorknobs and furniture, the natural surroundings, the way the light falls, or overlooked corners and unexpected views. He guides us with a sense of physically moving through the place, glancing around, taking it all in with the repetition and progression of viewpoints. In short, a masterful presentation.
